DEMO. CLEAR. FOUNDATION READY. ONE CONTRACTOR.

Full site work contractor. 20 years of heavy equipment experience behind every job.

Ruck Excavating is a full site work contractor serving builders, developers, and general contractors across the Lower Mainland and Fraser Valley. Whether your site needs demolition, clearing, or both, we take it from raw land or existing structure right through to a site your crew can walk onto and start building. One contractor, one call, no gaps between trades.

FULL SITE WORK CAPABILITIES

DEMOLITION

Structure takedowns, slab removal, foundation demolition, full site cleanup. Lot cleared and ready for new construction permits and breaking ground.

LAND CLEARING

Full site clearing from timber to finished grade. Brush mowing, mulching, timber felling, subdivision prep. Large acreage and tight residential lots.

FOUNDATION EXCAVATION

Basements, crawl spaces, footings and grade beams. Precision digging to engineered spec. Clean, accurate, and ready for forming.

UTILITY TRENCHING

Water, sewer, electrical, gas. Clean and accurate trenching with full BC One Call coordination. Residential, multi-family, and subdivision sites.

SITE WORK & GRADING

Building pad establishment, rough and finish grading, drainage shaping, topsoil stripping. Site ready for your foundation crew on time.

ROCK & CONCRETE BREAKING

Hydraulic hammer on large excavator. Bedrock, boulders, existing foundations and slabs. Quarry background means efficient hammer work at any scale.

STUMP & TREE REMOVAL

Excavator stump pulling and deep root grubbing on any lot size. Full debris removal and backfilling. Site clean for your next trade.

ROAD BUILDING

Access roads, driveways, subdivision roads, drainage ditching. Road base installation and compaction ready for paving or gravel finish.

DRAINAGE & EROSION CONTROL

Drainage shaping, swale construction, geotextile installation, rock armour placement. Slope stabilization and watercourse setback compliance.

EQUIPMENT

EXCAVATORS

- Large excavator, hydraulic hammer equipped
- Medium excavators for mid-scope site work
- Mini excavators for tight residential lots

TRACK EQUIPMENT & ATTACHMENTS

- Compact track loader, mulcher, grader blade, compactor
- Compactors, pad foot and smooth drum

COVERAGE

- Right size machine for every project scope
- Full attachment range for any site condition

Ruck Excavating Ltd.

RECENT PROJECTS & EXPERIENCE

RECENT PROJECTS

LARGE SCALE SITE CLEARING

Multi-acre clearing on steep, technically demanding terrain. Timber felling, full stump extraction, brush removal, and finish grading to spec. Operator experience across complex Lower Mainland and Fraser Valley sites.

STEEP SITE LARGE SCALE
FINISH GRADE

CLEARING TO BUILDING PAD

Full clearing through to rough grade on sloped, constrained terrain. Rock exposure, watercourse proximity, and geotechnical considerations managed throughout. Site handed off ready for foundation crew.

WATERCOURSE
ROCK EXPOSURE
BUILDING PAD

FINISH GRADING & SITE PREP

Precision finish grading across large site area with drainage shaping and topsoil placement. Complex underground drainage including custom drywell installation. Site leveled and ready for next trade.

FINISH GRADE DRAINAGE
TOPSOIL

ROCK & CONCRETE BREAKING

Hydraulic hammer operations across active quarry and construction environments. Bedrock, boulders, existing foundations and concrete slabs broken and processed efficiently. Quarry-environment safety standards on every job.

WHY RUCK EXCAVATING

EXPERIENCE THAT SHOWS ON SITE

20 years of heavy equipment operation including rock quarry, railway corridor, pipeline proximity, and large-scale civil work. That background means we have seen difficult sites before: steep lots, rock exposure, watercourse setbacks, geotechnical complexity. We do not get surprised and we do not slow your project down.

SAFETY & COMPLIANCE

WCB #201109784 current. \$5M general liability insurance. BC One Call on every dig, no exceptions. Changes communicated before we proceed, problems reported the moment we find them. You will never be the last to know what is happening on your site. Our goal is to earn your trust on every job and build strong working relationships that last.

OUR STANDARD ON EVERY JOB

SAFETY FIRST

BC One Call on every dig. WCB current. \$5M liability. WorkSafeBC compliant on every job site, every time.

NO SURPRISES

Clear written quotes. Changes communicated before we proceed. No hidden charges on your final invoice.

WE SHOW UP

On site when we commit to be there. Your schedule matters and we treat it that way.

CLEAN HANDOFF

We leave your site clean, structured, and ready for the next trade. No loose ends, no excuses.
